CAREER CONTOUR

I am unwavering, meticulous, and highly competent in the **IT Industry**. I have a consistent record of producing the best results-driven work and have proven ability to implement my work in an organized manner for **17+ years** of my successful career.

My expertise:- **IT Industry – SAP Basis, Greenfield Implementation, SAP Implementation, Database Management, Disaster Recovery, System Migration, HANA Cloud, SAP Security, High Availability, Cloud Connector, HANA Optimization, Data Replication, System Integration, SAP Administration.** I have in-depth knowledge of all management ethics. I possess effective communication skills and am a team player with strong organizational, Logistical, and problem-solving abilities.

I have great exposure to working with large-scale organizations like **Tech Mahindra, STCI PD Ltd.** I have well-versed skills in analysis, problem-solving, and coordination, which make me so successful and dedicated. Strong influencing and negotiation skills coupled with a proven ability to think in and out of the box, generating new solutions.

I have commenced my profession as an **Executive** and raised myself as a **Tech Lead** for a reputed company. I would like to see myself growing with the passing years of hard work and dedication. I have been awarded many accolades for my result-oriented hard work.

Armed with a multitude of competencies and work experiences, I am confident to carry forward any organization's vision & objectives with sufficient ease and dedication to my job responsibility.

EXPERIENCE

Jul'2024 – Till Date | Tech Mahindra | As Tech Lead

Responsibility:-

- Leading Greenfield implementation and upgrades for SAP S/4 HANA 2021, 2022 in GCP using SWPM and SUM tools.
- Configuring and managing SLT replication with S4 and MDG systems, ensuring smooth integration between platforms.
- Conducting comprehensive system upgrades, migrations, and database optimizations under the HANA 2.0 framework.
- Handling SAP BTP, Cloud Connector, and HANA Cloud administration for operational excellence.
- Managing SAP system security protocols, ensuring compliance with industry standards and performing periodic vulnerability assessments.
- Performing HANA DB encryption, high availability setup, failover/failback activities, and disaster recovery drills.
- Expertise in performing HANA cloud migrations, utilizing SUM DMO tools for smooth transition and upgrades.
- Leading troubleshooting initiatives and providing expert-level support during post-implementation phases.

- Collaborating with cross-functional teams to define and implement optimized SAP system configurations, ensuring high system performance and reliability.
- Automating routine SAP BASIS tasks to improve efficiency, reduce human error, and speed up system maintenance processes.
- Monitoring SAP system health, performance, and availability, providing proactive solutions to mitigate any risks or potential downtime.
- Leading the design and execution of backup and recovery strategies, ensuring data integrity and minimal downtime in case of system failures.
- Conducting detailed root cause analysis and providing effective solutions for complex technical issues, minimizing impact on business operations.
- Driving the implementation of best practices and standards for SAP infrastructure management, resulting in improved service quality and system stability.
- Providing mentorship and training to junior team members on SAP BASIS tools, processes, and troubleshooting methodologies.
